

Notice of Construction

County Road 43 Widening from County Road 44 to Colonnade Drive
Kemptville, Ontario

On behalf of the United Counties of Leeds and Grenville and the Municipality of North Grenville, Egis (formerly McIntosh Perry) would like to advise all stakeholders, emergency service providers, and constituents that construction along County Road 43 between County Road 44 and Colonnade Drive in Kemptville Ontario has been awarded to R.W. Tomlinson Ltd. and will begin on March 6th, 2024.

The County Road 43 Widening Project will be comprised of 3 construction seasons with an anticipated completion in late 2026.

The work being undertaken on County Road consists of widening the existing 2 lane County Road to 4 lanes; enhancing the existing roundabouts at Rideau River Road and Colonnade Drive; adding roundabouts at County Road 44 (Rideau St), Community Square/St Michael Catholic High School, Anniversary Way and the entrance to Stinson/Kemptville Retirement Living; and a phased construction of a new 4 lane bridge across Kemptville Creek. The project also includes the construction of 3.0 meter wide multi-use pathways complete with controlled pedestrian crossings on both sides of County Road 43; new street and pedestrian lighting; wetlands reconstruction and numerous landscape features.

The public is advised that there will be impacts to travel throughout the course of this Project including but not limited, single lane closures, uneven roadways, temporary signals and at times, limited access. Considerations have been given, and measures taken, to implement safe traffic and pedestrian control to ensure minimal disruptions.

For more information, including updates on the progression of this Project, the public is encouraged to visit the following websites:
